Find your organization's login URL

Each organization has its own sign-in page. Here's where to find it and why to use it.

For: Administrators, Managers, Employees · Updated November 16, 2026 ·
https://hipaacertify.com/support/article/organization-login-url

Every organization has its own sign-in page that looks like this:

`https://hipaacertify.com/org/your-organization-name-abc123/login`

It shows your organization's name above the sign-in form.

Where to find it

- **Administrators and managers:** it's on your **Dashboard** under **Your Organization Login URL**. Click the copy icon to copy it.
- **Employees:** it's in your invitation email (**Your Login URL**) and in every "New HIPAA Training Assigned" email.

Why use it

- It's the only page with the **Sign in with SSO** button, if your organization uses single sign-on.
- If you belong to more than one organization, it takes you straight into the right one.

The general page at **hipaacertify.com/login** also works for most people.

> **TIP**
>
> Administrators: put the link on your intranet or in your onboarding packet, and tell staff to bookmark it.
